

THE STORY OF CRUSTE & CO.

Eighty-four years in the making.

Our story didn't begin in a modern café; it began in **1942** at our **grandfather's humble tea shop**. The original boiler you see as you enter is more than a piece of history. It is a reminder of where we started and the tradition of hospitality we carry forward.

Our mother began by baking cakes in our family kitchen to sell in that very shop. What started as a small, home-grown passion eventually grew into **Finagle**, a household name that has been the **"silent ingredient"** in your favorite meals for decades.

Behind every loaf and pastry were years of **struggle, sleepless nights, and the relentless drive** of our parents to build something lasting. We grew up with a front-row seat to that dedication, and now, we are taking that legacy **to the next level**.

Cruste & Co. is our first step into a new era. It is a celebration of our heritage, a tribute to our parents' journey, and a commitment to **the art of the perfect bake**. From our signature hero croissant to our handcrafted signature dishes, every bite tells a story of resilience and heart.

Welcome to our table!
